generator's slightly higher than normal operating frequency. Most motors require more than the rated amperage for starting If this current surge exceeds four amperes, the appliance cannot be operated by the EM 400 Direct Current The EM 400 generator DC should not be used for any purpose other than charging a 12 volt auto-mobile battery. NOTE:

On the line, the 400's engine would be revved to its 10,000-rpm redline with the bike in first gear, the rider's weight would be rearward on the seat, and the clutch lever would be dumped against its stop with a bang. The mid-sized Four would then howl the rear tire with a wisp of smoke and the front wheel would
